Fund Manager Commentary

NUJOOM Aggressive fund ended the month of March up 0.8% with the NAV per Share at 110.9. As of March end, 36% of the portfolio was allocated to Equities, followed by 27% Sukuks, 17% in Private Equity and 21% in cash. Our Sukuk portfolio has an average coupon of 6.9% p.a. and a YTM of over 7.3%, with c.79% of this portfolio being investment grade. We have deployed 17% in Private Equity in a Pharma company that provides cold storage logistics solutions with a historical revenue CAGR of >60% (with the expectation of 50% CAGR in revenue in the next five years). In February 2025, we also collected all the proceeds from our previous Private Debt investment, increasing our month-end cash position which will be deployed based on the market conditions.

March was a particularly poor month for risk assets as the uncertainty created by threats of high tariff levels from the US began to show up in weaker economic data. The S&P fell 6% led by technology stocks with the Nasdaq down nearly 8%. Small caps in the Russell 2000 fell 7%. Fears over negative economic consequences of US trade policy weighed heavily on US risk assets, but also now sentiment towards the rest of the world which had performed well so far this year is beginning to sour. Europe fell 4%, Japan fell 1% but China managed a 1% gain as hope for a major stimulus program offset fears over a trade war with the US. On a sector basis traditionally more defensive sectors performed best with the likes of Consumer Staples, Healthcare and Utilities proving more resilient in a risk off environment.

Bahrain outperformed other regional markets in March 2025 with a m/m total return of +2.4% followed by Oman +1.9%. Additionally, Tadawul was down -0.4% while ADX, Qatar, and DFM also saw downward pressures of -0.7%, -1.1%, and -1.3% respectively. YTD, Kuwait remains the best performing market +9.9%, followed by DFM +1.7%, Bahrain +1.1%, and ADX +0.9%.
